

# Step by step funding & support for primary care

Essex and Hertfordshire Comprehensive Local Research Network

- We have research support funding opportunities for Primary & Community Health Teams
- We will assist you to assess the benefit of fitting research into clinical practice and show you how to integrate this into routine practice
- We will provide you with access to high quality and fully funded, Portfolio Studies which already have ethical approval
- We want you to participate in research and **DO NOT** expect you to become a researcher!
