

Supporting Industry Research in Essex & Hertfordshire – Key Developments 2010/11

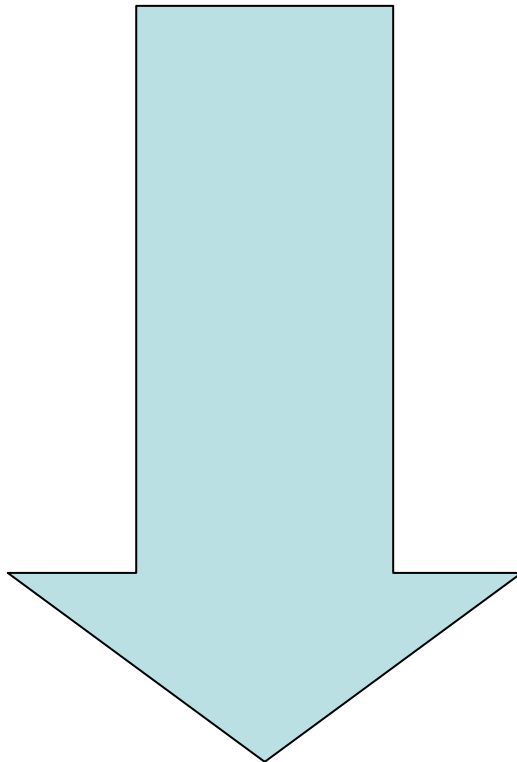

18th November 2010
E&H CLRN Staff Meeting

Current picture 2010/11

- Commercial (TCRN/PCRN led) = 1258 patients (26 studies)
- Commercial (CCRN led) = 408 patients (7 studies)
- **Industry currently accounts for 16% of our studies (207)**
- **149 studies** with CCRN Industry Team; we have been approached for **48 studies (32%)**
- Of the 48 studies;
 - 30% Cardiology, 15% Musculoskeletal, 8% Haematology, 8% Nervous Systems, 8% Ophthalmology, 6% Renal, 6% Respiratory & 19% Others (7 specialities)
- Represent 92% Secondary; 8% Primary/Secondary Care

CCRN065 – Go More Study Southend University Hospital

CCRN065 – Go More Study Princess Alexandra Hospital, Harlow

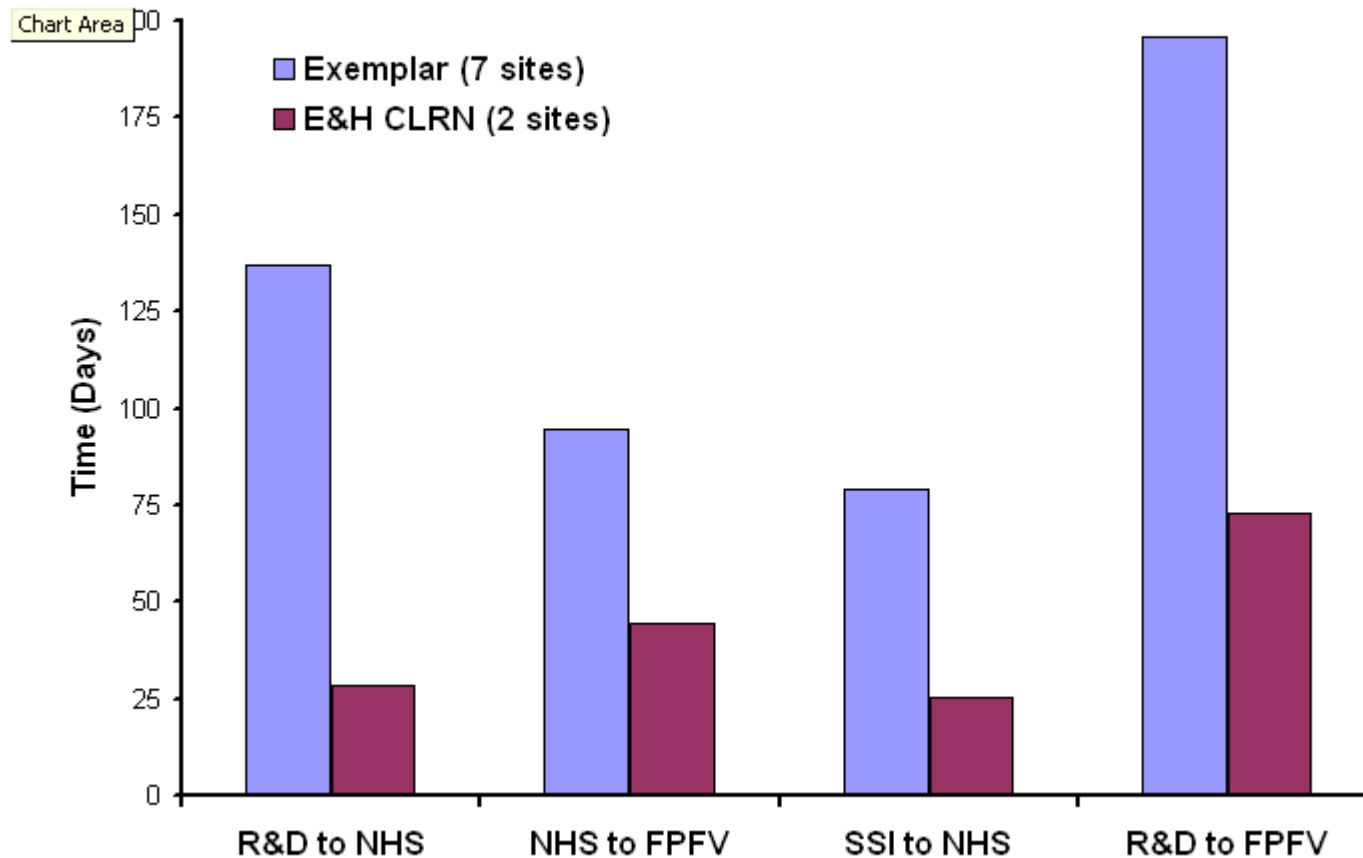

NIHR North West Exemplar Programme

- CCRN065 (Go More) was a study in North West Exemplar Programme
- Initiative to demonstrate NHS as good as best in Europe at carrying out high quality studies quickly, efficiently to recruitment targets
- Set-ups and performance of 20 exemplar studies evaluated in programme
- Report on Phase 1 recently published
- Exemplar to be rolled out nationally soon
- **Q: How did our local performance (2 sites) compare to that of the 7 sites included in NW Exemplar?**

CCRN65 Go More - Example of NW Exemplar vs E&H CLRN Study Setup Times

CCRN65 Go More - Example of NW Exemplar vs E&H CLRN Recruitment to Target to Time

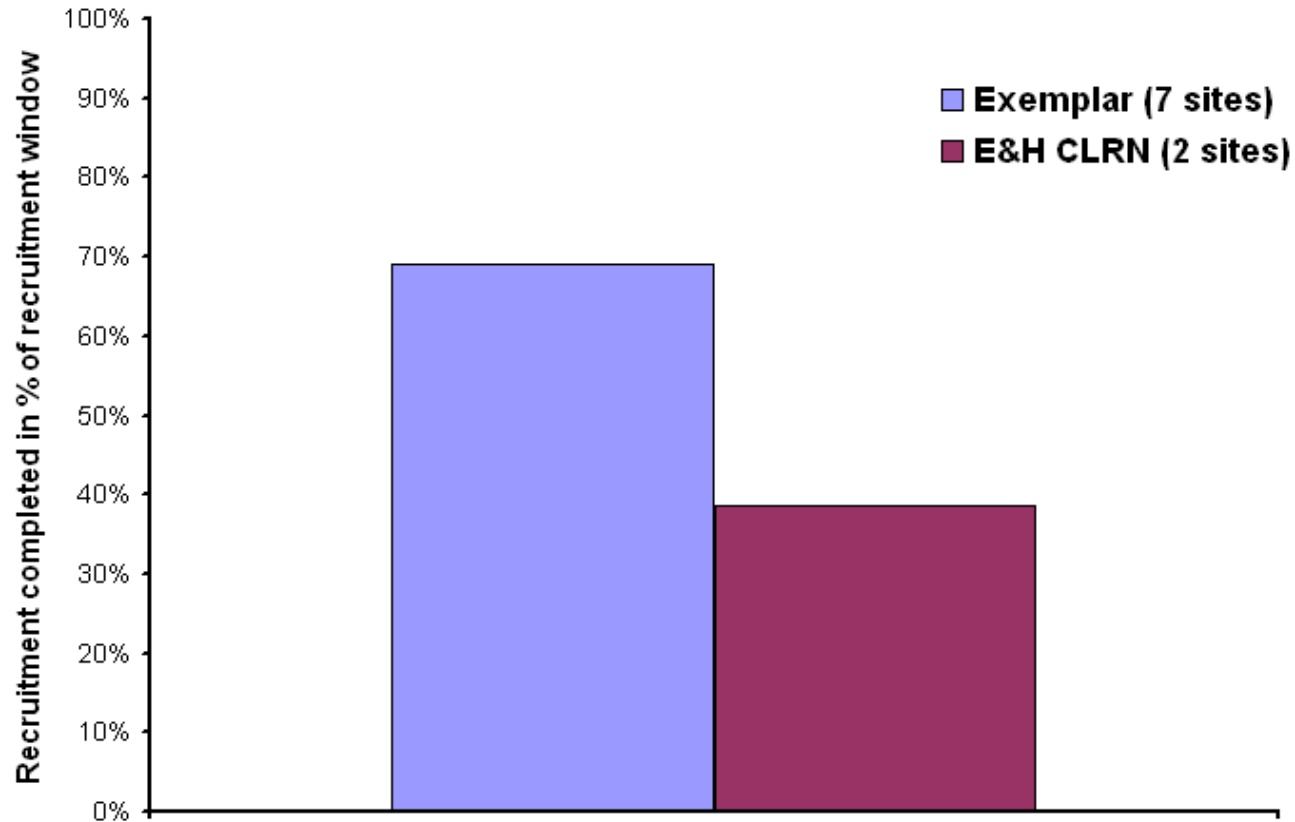

Chart Area

Summary

- On target to achieve KPI for commercial studies
- Some great work going on. We have all identified ways of working 'smarter' to ensure more CCRN Industry studies become operational locally
- Have some fantastic data to demonstrate quick approvals, study set-up and performance. Need to shout about this!
- **Q:** What level of industry 'study delivery' could we achieve if we focussed collectively on approval, set-up times and performance in real time?
- **A:** Lets see! Need improved & central recording of these key metrics to drive this.
